Rialto Adoption in UKI

Recent Developments: Selection Plan

- An innovative solution to acquire or add titles to DDA with minimal librarian involvement

The screenshot displays the ProQuest Selection Plan interface, which is used for creating and managing acquisition rules. The interface is divided into two main sections: 'Query' and 'Rules'.

Query Section: This section allows users to define search criteria. It includes a search bar at the top with 'Market' and 'Keywords' dropdowns. Below the search bar, there are several criteria that can be added to the query, such as 'Added X weeks ago', 'Availability', 'Held in my institution', and 'Price'. Each criterion has a corresponding dropdown menu for selection.

Rules Section: This section is used to create and manage rules for title acquisition. It features a table with three columns: a list of rules, their descriptions, and a 'Remove' button for each rule. The rules are numbered and include their creation date.

Query	Rules	
1 DDA Created 08/25/2020	DDA (up to 10 titles)	Remove
2 Law Created 08/25/2020	LCC = K (up to \$400)	Remove
3 Everything else Created 08/25/2020	Everything else (up to \$500)	Remove

Description
The story of downtown Chicago—its early development, later struggles, and current restoration—is mirrored in the history of the theatres that occupied its streets. This vivid chronicle tells the tale of the Windy City's theatres, from mid-nineteenth century vaudeville houses to the urban decline and renewal of the twentieth and twenty-first centuries. This book is a valuable addition to the history of the Windy City and its theatres.

ProQuest Historical Newspaper: Le Monde

- France's newspaper of record and most respected French newspaper historically
- Founded at the request of General Charles de Gaulle as the German army vacated Paris during WWII from the “moral wreckage” past newspapers.

“Hubert Beuve-Mery founded the independent Le Monde in 1944 at a time when other Parisian newspapers stood accused of Nazi sympathies and he then meticulously nursed it into France’s most influential daily.”¹

- Known for its independence from political parties that was unusual in French journalism.
- Highly respected for interpreting and informing the public of major events. *Known for its deep analysis of historical events.*
- Le Monde was committed to the French people—their future and prominence. Modernization and social justice were its focus post-WWII.

One of the world's most important newspapers post-WWII
